

URC COMMUNITY PROJECT AWARD

Families Matter has had a very successful year. We are very proud to have won first prize in the URC Community Awards in Summer 2016 for the most innovative church-based community project in the country. We have also received money from Dibden Allotments, the sale of art by Peter and Mary York, the Hythe Waitrose Green button scheme, Hythe Rotary club sponsored walk, Councillors Dan Poole and Malcolm Wade, and many smaller donations.

Along with support from the local schools, this has enabled us to take on two new schools project workers and expand our successful 'On The Right Track' scheme. We are very grateful to all in the local community who have supported us financially in the current tough climate.

Families Matter is now reaching 90-100 families every week through our schools work and various support groups.

Julia Cross - Project Manager
